# THIS IS SCHOOL OF FUTURE

## **"Where Tomorrow's Technology Leaders are Crafted"**

A Cutting-Edge Four-Year BTech CSE Program, specializing in Artificial Intelligence, Data Science, Augmented/Virtual Reality, and Web3 Blockchain. This curriculum goes beyond conventional technology education by integrating foundational computing skills with emerging tech trends, along with soft skills, business insights, networking, and entrepreneurial thinking. With a strong focus on experiential learning, the course is taught by top industry professionals, preparing students to thrive in the fast-changing tech world.

# 100% PLACEMENT GUARANTEE

LetsUpgrade and ITM Skills University collaborate with over 700 corporations to open career paths for our learners.

Our curriculum focuses on highly sought-after skills, ensuring that graduates emerge with a standout portfolio of projects showcasing their capabilities. This preparation aims to make them ideal candidates for well-paying employment opportunities.

Our commitment to student success is underscored by our '100% Placement Guarantee,' a testament to the effectiveness of our program and the dedication of our corporate team in obtaining attractive job proposals for our students.

## Minimum Package - 8 LPA\*

### Companies Hiring

Other 700+ Companies

## Traditional Engineering

### Academics

Curriculum	Outdated	<i>Co-created by Unicorn founders, CEO, CTOs, VPs &amp; Directors of Engineering for Real world</i>
Instructors	No Industry Experience	<i>Industry Leaders &amp; Working for top tech companies</i>
Assignments	Theoretical written papers	<i>Coding 40+ Apps and Products</i>

### Skills Development

Technical Skills	Outdated curriculum	<i>New age curriculum for 2028 and beyond</i>
Softskills	One outdated Subject	<i>Every Semester 100 Hours for softskills program</i>
Entrepreneurship	Maybe 1-2 Seminars	<i>A 60-hour subject with a pitch to VCs as the final step to get seed fund from <u>1 Cr Seed-fund</u> dedicated from ITM</i>
Business skills	Nothing to talk about	<i>Learn everything of business from Sales to HR as this is must for Future leader</i>

### Support Framework

Mentorship	No dedicated guidance	<i>Monthly 1-1 sessions</i>
Student Support	Generic support	<i>Allocated to Every Learner</i>
Mental well-being	No support	<i>Dedicated Center for Wellness</i>

### Career and Job Preparation

Internship	Internships aren't supported	<i>One-year paid internship must</i>
Employability	Has to undergo extra training	<i>Ready to work at Top Tech Companies</i>
Job Role	Junior SDE	<i>Senior SDE / Startup Founder</i>
Placement Bootcamps	No dedicated Track	<i>350+ Hours of dedicated Revision, and Interview Prep</i>

Software Dev Jobs Will Soar 22% by 2030: Why Now's the Perfect Time to Learn to Code.

# BECOME A PART OF FUTURE TECH.

*"AI is to become the most profound piece of technology in human history."*

- Sundar Pichai, CEO at Google

*"Steve Jobs wasn't a natural leader at marketing and communications, and had to learn it because he wasn't a good engineer."*

- Steve Wozniak  
(Apple Co-Founder)

*"Success in creating AI would be the biggest event in human history."*

- Stephen Hawking

*"AR/VR is the Future of Computing, and Engineers Will Build It."*

- Tim Sweeney, Founder & CEO of Epic Games

# Huge Demand > Limited Supply

“Good quality engineering education is in high demand in India, but there is a limited supply of top engineering seats”

**15 lakh students taking admission**

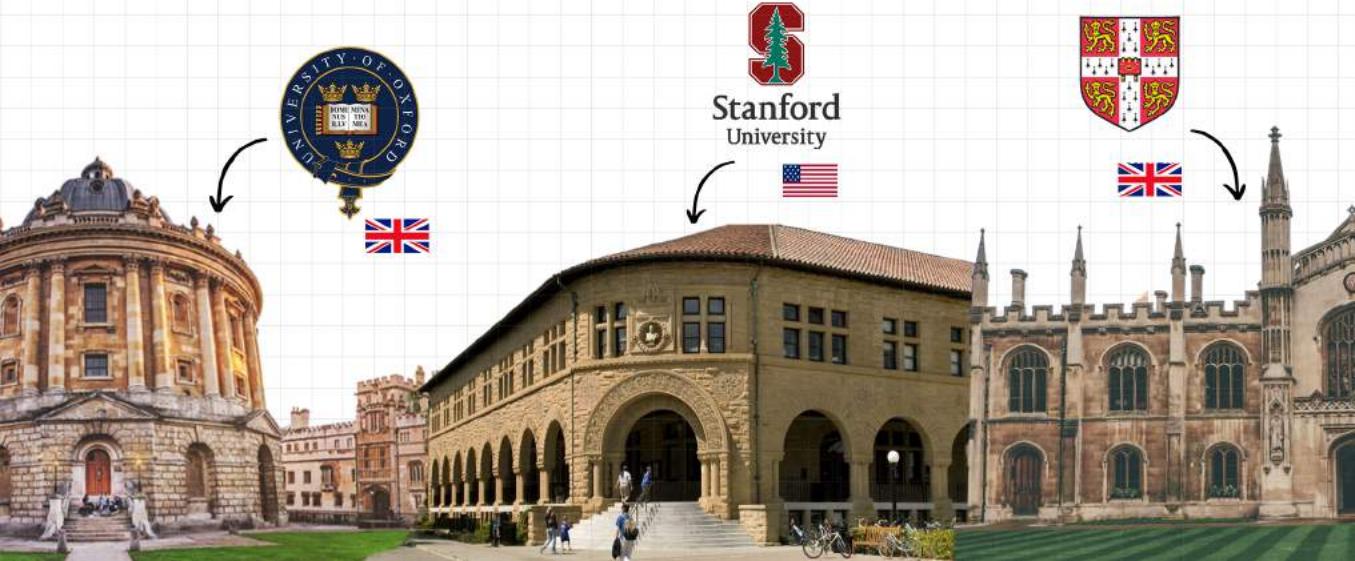

**Only 30k seats available in  
top colleges**

## Planning to pursue CSE (UG) abroad ?

Career and quality of education will be good, but it'll cost more than **80 lakhs on a average** going and studying abroad in any country

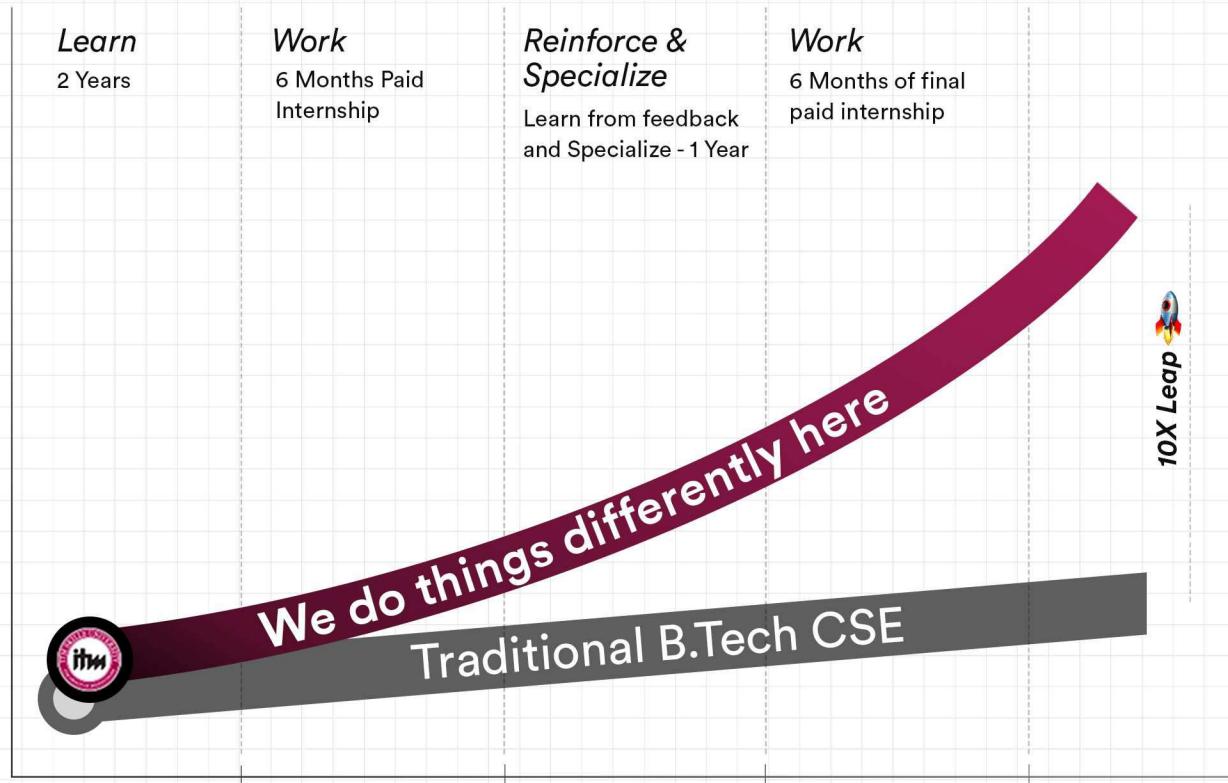

# Pursue a **World-Class** B.Tech Program at ITM Skills University

# PROGRAM OVERVIEW

## B.Tech Computer Science Engineering Program

- Designed by *unicorn leaders* for future software developers
- Learn from *experienced developers* working in top tech companies
- Learn *one subject per sprint* of a week or 10 days to *focus on a particular skill*
- *Build projects* at the end of each subject to get continuous evaluation and build your *GitHub portfolio* alongside
- In two years, become a *full-stack developer* with frontend, backend, and cloud computing skills
- Get started with a *paid internship* in top tech companies
- Come back to campus to learn more *important and complex subjects* used to build real-time, highly scalable applications *like Zoom, stock trading apps, etc.*
- Specialize in artificial intelligence, machine learning, data science, blockchain, or AR/VR
- Get a *100% job guarantee* with a minimum salary of *8 LPA*
- ITM Skills University and LetsUpgrade have more than *700 companies* that offer placements
- With only 40 students in one cohort, the placement team will work with a *ratio of 150 students to 700 companies*, which will ensure amazing job opportunities for all the students

**Co-Created by Unicorn Founders, CTOs,**

**VPs and Directors of Engineering**

As curriculum gets outdated super soon, so we built this curriculum in collaboration with 25+ technology leaders who work with more than 5K+ software engineers in India.

# TOP 1%

of Industry

**We're partnered with 13+ tech communities in Mumbai**

Our students have exclusive access to Meetups, Hackathons, and Tech Events in Mumbai because we believe meeting industry guys, talking to them, and networking with them will help them grow exponentially

# Syllabus

A Student will get ready for a specific job role each semester and build practical projects

## Semester 1

Semester 1

"Go from 0 to 1 in Computer Science Basics"

Tech:

- \* Get started with Computer Science
- \* Competitive Coding
- \* Trending AI tools - P1

Softskills:

- \* Problem Solving
- \* Communication

Tools & Languages -

Projects -

## Semester 2

Semester 2

"Become a Frontend Developer"

Tech:

- \* UI/UX
- \* HTML & CSS
- \* JavaScript
- \* ReactJS
- \* Trending AI tools - P2

Softskills:

- \* Teamwork
- \* Adaptability

Business:

- \* How to build a valuable product and price it

## Semester 3

Semester 3

"Learn backend development"

Tech:

- \* SQL and NoSQL
- \* NodeJS
- \* ExpressJS
- \* Develop Full Stack Apps
- \* Trending AI tools - P3

Softskills:

- \* Time Management
- \* Teaching Students

Business:

- \* Selling anything and building operations

Tools & Languages -

Projects -

## Semester 4

Semester 4

"DevOps and Cloud Computing"

Tech:

- \* Amazon Web Services
- \* System Design
- \* DevOps
- \* Trending AI tools - P4

Softskills:

- \* Leadership
- \* Placement Bootcamp - 1

Business:

- \* Economics and Customer Support

Tools & Languages -

Projects -

# Semester 5

Semester 5

"Experience Industry"

- 1st Internship -
  - \* 6 Months of Internship in Product or Service Based company

Global Immersion program 

# Semester 7

Semester 7

"Master a Specialization: Unlock Your Expertise"

Tech Electives-

- \* Web3 (Blockchain)
- \* Data Science
- \* AR/VR
- \* Artificial Intelligence & ML
- \* Trending AI tools - P6

Softskills -

- \* Placement Bootcamp - 2

Tools & Languages -

Projects -

Semester 6

"Create Mobile Apps and Manage Projects"

Tech -

- \* Mobile App Development
- \* Project Management
- \* Product Management
- \* Trending AI tools - P5

Softskills -

- \* Business Communication
- \* Resume Building
- \* Finding Jobs

Business -

- \* HR, Accounts, Investments

Tools & Languages -

Projects -

Semester 8

"Second Internship"

Internship -

- \* 6 Months of Internship in Product or Service Based company

Softskills -

- \* Placement Bootcamp - 3

# Semester 6

## Admission Process

### Level 1

Complete Application Online

Once shortlisted we will call you for CTO Challenge

### Level 2

Chief Technology Officer  
Challenge & Personal Interview

### Level 3

After the interviews, admissions committee will respond with its final decision

### Level 4

# LIFE AT CAMPUS

Our students engage with industry professionals right from their first week on campus. This frequent interaction with industry experts is crucial for learning about real-world applications, networking, and gaining direct insights through questions. It's a source of immense inspiration and motivation for delving deeper into their subjects.

These interactions aren't limited to one-off workshops; they're structured so that industry professionals contribute significantly to the curriculum. Starting from the second semester, a student's education is divided into two parts: 40% is taught by our core faculty, while the remaining 60% is delivered by industry experts.

Ai 1:1 teacher

**Lisa**

LetsUpgrade Tech Team created Lisa LXP, a unique software that adapts to each student's goals and life context, offering tailored course content and 24/7 access to live, personal teaching assistance on their MacBooks

# This is how your journey will look like in campus

"Start your Btech with a Bang"

"Learn how to present your stance in front of people "

"Gain confidence through classroom teaching"

"Craft your ideal business blueprint and present it effectively"

"Meet your entire student community and party hard"

"Build your brand, beat competitors, and learn brand positioning."

"Let's unwind together with a movie and plenty of popcorn"

"Our Students participate in Google DevFest"

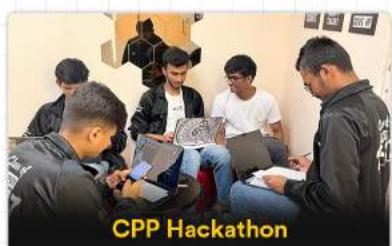

"Celebrating 9 days of Navratri in vibrant traditional dressing"

We are on the path to build very open management team.

Friends of Figma Meetup attended by our Student Rowdies

"Build 100 C++ codes first and right and get to win 10k Amazon coupon"

"We celebrate Bollywood Day in campus every year "

We regularly get our students to interact with Industry.

We celebrated their 1st Sem End its super rare in any university

“ This was the best decision of mine to admit my child in this college. I would love to thank everyone made this happen to get my child into such great curriculum & University ”

- Kamaljeet Singh  
Ex - Zee News  
Parent of Manmeet Singh

“ Since joining the B.Tech CSE course, my ward Atharva has exhibited increased confidence in technical and soft skills. ”

- Santosh Jadhav  
Asst Police Inspector  
Parent of Atharva Jadhav

“ People from industry and particularly from technology area coming and telling the child in the first year itself this, I think is the brilliant step. ”

- Sunil Sahajwalla  
Ex - Samsung  
Parent of Tanay S

# Testimonials

“Engaging with industry experts while learning Python and C++ has been an amazing and impactful experience in a happy, conducive environment.”

- Tanay Sahajwalla

“Gaining confidence and an edge in my field from the first semester, thanks to The School of Future Tech's powerful, modern curriculum, fuels my passion for continuous learning and achievement.”

- Manmeet Singh

Transformed into a better person and professional, I'm grateful to ITM Skills University for an amazing semester filled with unique experiences like in-house hackathons and meetups, which added immense value to my career.

- Raheel Kotwal

“ITM's diverse perspectives and supportive atmosphere, combined with great mentors, have enhanced my technical skills and personal growth, while participation in hackathons boosted my confidence in applying knowledge in real-world scenarios, fostering curiosity and innovation in a dynamic ecosystem.”

- Roshni Rai

“Wrapping up our first semester at ITM Skills University, I am on an incredible journey far beyond ordinary college experiences, feeling upgraded and enriched with industry insights from tech leaders, giving me an upper hand in my field and excitement for future semesters.”

- Husain Hakim

“In 6 months, we have learned that languages which other college students would have taken 1-2 years to learn, Btech CSE is all about coding, so from start we focus on core fundamentals of CSE.”

- Piyush Kumar Singh

“The entire Semester I was awesome! We had a sprint model that unburdened a lot of load and allowed us to focus on core skills, and industry leaders gave interesting lectures. Every day was more interesting than the other.”

- Atharav Patil

“INDIA'S BEST B.TECH CSE' truly lives up to its name; the first semester has remarkably improved my knowledge, confidence, and problem-solving skills, and I eagerly anticipate acquiring more skills and sharing this passionate learning journey with friends. #EAT, SLEEP, CODE, REPEAT.

- Manas More

“From receiving inaugural swag boxes to writing our first semester exams, our journey has been extraordinary, surpassing the typical CSE student experience with meet-ups, tech leader interactions, hackathons, and presentations, complemented by forming bonds with batchmates, all gearing us for an amazing career launch.”

- Anusri Karmokar

“Reflecting on the semester's end, I'm astounded by my transformation from a novice in coding and computer systems to proficiency in C, C++, Python, and app development using no-code platforms. The engaging sessions with industry experts, have been eye-opening, equipping me with vital skills for future job opportunities.”

- Rafe Shaikh

“Transformed by ITM Skills University's practical, industry-oriented curriculum, professional approach from day one, and mentorship from leaders, I've gained confidence, insights, and achieved remarkable project deployment within the first year.”

- Hanshika Anchan

“Looking back 5 months ago, not only with respect to academics but also as a person overall, the changes are massive. Couldn't have asked for a push ahead in life than the one we got here in college. Every little thing brought about some value, right from the repetitive assignments to the guest lectures. Looking forward to even more thrilling semesters coming up”

- Prem Thatikonda

“My mind, once a blank canvas, now dances with Python, C++, and Scratch tunes- a symphony of problem-solving. Love studying at ITM School of FutureTech”

- Prem Thakare
